PIONEER BAND CONCERT—The

Pioneer Band rendered the usual Sunday afternoon concert at the city hall at 3 p. m. to the usual large attendance. The program contained splendid good new sets of music and was well arranged and rendered in the best of professional style.

LADIES COAT FOUND—A ladies

short coat was brought to the Republican office last evening. It was picked up about 12 miles from Scottsdale, behind Camelback mountain, lying in the middle of the road. The owner may have her coat by calling at The Republican office, and identifying her property.

CHANGE OF POLLING PLACE—

It having been found impossible to secure the same quarters for a polling place in the second precinct of the second ward for the general city election on April 1, as were used at the primary election on March 1, arrangements have been made to establish the polling place at 710 West Adams street. Early announcement of the change is made in order that there may be no confusion on election day on the part of those who vote in the second precinct of the second ward.

Mrs. J. B. Thomas of Los Angeles will be at the Adams hotel, Monday evening and Tuesday, March 29 and 30, with a line of Spring Suits, both fancy and tailored, also separate coats and fancy blouses. Will be glad to see the ladies of Phoenix. (Advertisement.)

Use our coffee and we will give you an Aluminum Percolator to make it in. With 15 lbs. of ANKOLA COFFEE for \$5. You either buy it now and take your coffee as you need it, fresh every day, or buy your coffee as you need it and keep your tickets and whenever you have paid for 15 lbs. of ANKOLA COFFEE, the Aluminum Percolator is yours.

MODERN MOTOR CAR SERVICE DEFINED

"There are two kinds of motor car service," says Tom Trent of the O'Neill Auto & Supply Co. "First—The service given by the car itself. Second—The service given by the maker or the dealer while the car is in use. Both are equally important."

"It is very true that you want a reliable, efficient automobile, one that is consistent in its performance, one that will give you lots of service, and the best possible way to determine as to these qualities is to look up the car's record in actual use. Then, too, you can very easily anticipate the kind of service to expect from the maker of the car by simply looking up the record of the factory—how long they have been in the business of manufacturing automobiles—how well they have served the purchasers of their products."

"The Maxwell and Chalmers have, as you know, been manufacturing automobiles for over ten years and today can furnish on short notice any part required for any of their models now in use. This is the kind of service any purchaser should be interested in—the kind of service that is so often overlooked until it is too late."

"You start to your office or place of business in the morning. The asphalt has just been sprinkled. Another machine suddenly swings in from a side street. You instinctively set your brakes and the next instant your machine skids over the slippery street and against the curb. Nobody's fault—but the wheel is broken, perhaps some part bent. Is it not of vital importance to be able to secure prompt attention in such a case? These out of the ordinary occasions are what actually test the service of the dealer who sold you your car."

"In our Service Department it is our chief aim to save time for Maxwell and Chalmers cars. Everybody knows that the material used does not constitute the heaviest expense on a shop bill. It is the labor—the time that counts up. And any machinery or equipment that facilitates the work not only renders more satisfactory service to the owner but also saves him considerable expense."

"Just take for instance a portable crane which we have established in our service department. This huge crane runs on a track 30 feet one way and sixty feet the other, so that it covers the entire machine shop. Instead of the old slow method of working over a car, Bill Tremaine's men can swing any sized motor car as high as they like, thus avoiding the cramped pits."

CONSERVATION CLUB—The con-

servation club will meet this afternoon at 3 o'clock at the Kindergarten building, 422 West Washington street.

WOMAN'S AUXILIARY—The Woman's Auxiliary of Trinity Pro-Cathedral will meet this afternoon at 2:30 o'clock at the home of Mrs. Ancil Martin, 804 North Second avenue. Members are asked to bring their United Offering boxes.

KANSAS SOLON TO SPEAK—Ben F. Wilson, formerly a member of the Kansas legislature, will lecture this evening at the Y. M. C. A. stadium on the subject "Present Impelling Forces Toward Social Progress." The lecture is set for 8 o'clock. There will be no charge for the lecture and the public is cordially invited to attend.

TRINITY NOONDAY SERVICES—Beginning today and continuing until and including Thursday, special Holy Week noon-day services will be held at Trinity Pro-Cathedral. The services will begin promptly at 12:05 o'clock and continue for twenty minutes. For the convenience of those who attend the service, luncheon will be served in the Parish House at a nominal price. The address of today will be brief and will be delivered by Rev. William Scarlett dean of the diocese. The luncheon today will be served by the Junior Guild of the church. Everybody is cordially invited to attend these services.

MELOSH TO PEN—Harvey Melosh the daring young holdup man, was taken to the penitentiary at Florence yesterday to start serving an eight to ten year term. Melosh pleaded guilty after being identified by Mrs. Dunlap whose house he attempted to burglarize, holding her up at the point of a gun. He allowed himself to be bluffed out of his intentions, and fled, to a neighboring house, where he was comfortable enmeshed while the officers were looking for him. In sentencing him, Judge Stanford scored him, declaring the unlucky young man to be a menace to society and ought to be placed where he could do no harm.

WOODMEN OF THE WORLD—A

full attendance of all Woodmen of the World is desired tonight. There have been initiations every week since the first of the year and tonight will be no exception as a class of twelve will be taken in. There will be especially interesting work by the "degree team." Deputy M. L. Stewart spent three days last week in Chandler and revived the old Woodmen camp by taking the names of several members who wish to transfer to that camp and by writing up eighteen new members. The Woodmen of the World camps are flourishing all over the state.

THE WOLFE TELEPHONES—It was stated in The Republican yesterday that a unique telephone system had been installed in the Red Cross Drug Store whereby it would hardly be likely that anyone calling the establishment would find the line busy. I. F. Wolfe, the proprietor, first contracted for three telephone numbers, 1671, 1672 and 1673. By a special mechanical contrivance these telephones are automatically interchangeable. If a person rings 1671 and that line should be in use, the ring would be automatically transferred to 1672 and should both lines be busy, the ring would be again transferred to the third telephone. The first ring would be all required.

COMMISSION WANTS LOWER EXPRESS RATE ON MILK AND CREAM

Inconsistencies in existing tariffs to El Paso Are Pointed Out to the Commission—Reduction in Rates

Calling attention to the inconsistencies that obtain in existing express rates on milk and cream between the Salt River valley and El Paso the corporation commission has written N. K. Lockwood, traffic manager of the Well-Fargo Express company at San Francisco urging that steps be taken to lower rates on these commodities from Arizona to neighboring states.

Under existing tariffs, the rate from here to El Paso on a ten-gallon can, weighing 100 pounds is \$2.23. The combination of the local rates from Phoenix to Rio Grande, three miles this side of El Paso, and from Rio Grande to the Pass City makes the rate for a 100 pound shipment eighty-seven cents. This the corporation commission points out is the rate which should apply, and the express company has been informed that if the tariff is not reduced to this figure, the matter will be taken up with the corporation commission.

Discrimination against Glendale shippers amounting to from 40 to 50 cents on the hundred pounds on shipments of milk and cream to the southern part of the state and to El Paso have also been called to the attention of the express company, as well as the fact that the matter of a general reduction of express rates throughout Arizona has been pending for some time. If definite steps are not taken to reduce intra-state rates, the company has been informed, the commission will set a date for hearing the matter, and issue such orders as may seem necessary to attain the desired reductions.

UNDELIVERED TELEGRAMS—

There are undelivered telegrams at the Western Union Telegraph office for the following: Mrs. M. M. Miller, Mrs. C. M. Cooper, F. Tilton, Geo. S. King, Geo. Thomas, Mrs. May Chalmers and Harold Therman.

Yeoman, Denver; A. W. Travel, St. Louis.

SMUGGLING TRICKS

(Continued from Page One)

tobba, besides trains passing other frontier gateways. Many of the closed cars are sealed by the railway officials at the point of origin, and it is impossible for the frontier officials to ascertain what is in them. The only effectual way to stop this contraband traffic would be to have every car unloaded at the frontier, and the contents reloaded into Austrian cars.

At the present time Austria-Hungary is said to have some twelve thousand covered freight cars belonging to Italy and which are being used for conveying troops and munitions of war. And all the efforts of the Italian railway authorities to get their cars returned are said to be in vain. Some three hundred of these cars have been captured by the Serbians. There seems no reason to doubt that the Italian government and its officials—customs, railways, gendarmes and police, are really endeavoring to prevent contraband goods being sent to Austria-Hungary. But the physical difficulties are so great, that unless the official staff could be very largely increased, all efforts to control the traffic will prove vain.

Mrs. J. B. Thomas of Los Angeles will be at the Adams hotel, Monday evening and Tuesday, March 29 and 30, with a line of Spring Suits, both fancy and tailored, also separate coats and fancy blouses. Will be glad to see the ladies of Phoenix. (Advertisement.)

AUSTRALIA TO SEND

(Continued from Page One)

It is understood that the April contingent will consist of two infantry brigades and one light horse brigade. It is said that the authorities are not troubled with a lack of volunteers but with a lack of facilities of readily arming and equipping them, and that but for this handicap Australia's contingent to the war would be not far from 100,000 men.

A wave of enthusiasm over the formation of rifle clubs, has been prompted largely by criticisms which Senator Pearce made in recent speeches. He said: "The young fellow who at a time like this spends his Saturday afternoons watching cricket matches or surfing on the beaches, or who goes regularly to the stadium contests, would be more patriotically employing their leisure hours if they were to fit themselves for the defense of their country and encourage others to do so."

He said that when Lord Kitchener visited the Commonwealth some years ago he planned a reserve military force which in its earlier years was to consist of rifle clubs. Every citizen of the Commonwealth, the minister continued, who was not able to join the expeditionary forces but who desired to fit himself for defense could join an existing rifle club or if there was no club in the neighborhood he could organize one.

Clubs are now being formed in every quarter, and in the meantime the newspapers which have done the steadiest campaigning for "more men for the war" are pointing out that rifle clubs are intended for stay at home and volunteers for the overseas contingents areas urgently needed as ever.

NEEDLESS LABOR

"What is your reason for believing in the nebular hypothesis?" asked the man who is always seeking information.

"I don't know that I exactly believe in it," replied the scientist. "But after a man has gone to the trouble of finding out what it is, it seems a shame to contradict it."—Washington Star.

DOUBTFUL

"What are they going to call their baby?"

"I don't know. They named it Reginald."—Gargoyle.

Your shoes will look new if Sandige repairs them. Just received a fresh shipment of tan and black rubber heels. We put them on while you wait. Work done by experts with real shoe repairing equipment. 24 W. Broadway. Come through Kress.—Adv.
